THE VIKINGS TILE-LAYING GAME

In the long winters between the glorious summers of raids and exploration, warriors scheme and keep their intellects sharp through games of wits and chance. Ragnar, Rollo, Floki and even the Earl challenge each other to this game of stone placement filled with tactics and subtle maneuvering for victory.

In **Jarl: The Vikings Tile Laying Game**, players move their warriors (tiles) around the board and flip them over after each move. Each tile's side shows a different movement profile. If you end your movement in a square occupied by an opponent's tile, you capture that tile. Capture your opponent's Jarl to win!

## QUICK PLAY

This version of Jarl allows players to try out this dynamic game. Simply cut out the pieces, fold them and paste/tape the front and back together. You'll also need bags, cups or some other manner to randomly draw the paper tiles out for game play.
